

## pb:z Brake Pads: OES-Quality Made in Germany

The Zimmermann range of pads in OE-Quality guarantees the highest level of braking performance. Every vehicle has its own characteristic and thus special requirements in terms of brake pads. Various mixtures of friction materials made from up to 25 different raw materials are the basis for highest quality, reliability and safety. Long lifespan, optimally adapted for highest braking performance, optimal corrosion protection and ECE R90 compliance characterize the pb:z pad.

Temperature, pressure and time are all important factors in manufacturing when it comes to achieving the optimal result.

The pb:z brake pads are manufactured exclusively in our plant in Sinsheim, Germany.

OES Quality for a competitive price.

pb:z brake pad, e.g. with chamfer

Zimmermann pb:z brake pads are available for selected applications

Combed backing plate for a higher shear strength

## Your advantages:

- OES quality guarantees highest braking comfort
- Highest precision for ultimate safety
- Available for selected applications
- Up to 25 different raw materials within the friction mixture
- Underlayer for increased comfort a safe connection of friction material and backing plate
- Temperature, pressure and time are deciding factors for OES quality

## High-end braking performance with Zimmermann pb:z brake pads!
